

In Loving Memory of a Great Father and Leader at Shafer Insurance Agency.

With the recent passing of our Father, John R. Shafer, the Shafer Family would like to take this opportunity to thank the community of Cambridge and the surrounding areas for all of the support over the many years to our family business, Shafer Insurance.

Established in 1900, when policies were delivered on horseback, our family has always been humbled and grateful for the trust, friendship and patronage you have extended to us. To think that the business was started by our Great-Grandfather, John Bingham Shafer, passed down to LM Bing Shafer and then our Father, John Robert Shafer is quite remarkable.

When our Father came into the business, some 62 years ago, he had a passion for the community and became involved in many of the local entities, Jaycees, Kiwanis, Masons and Shriners. He was a founding member of the Centurion Club and a Past President of the Cambridge Chamber of Commerce. The only time he left Cambridge

was to attend Otterbein College on a basketball scholarship. His competitive spirit fueled his passion to assist each individual or corporate client with the very best service, support and a genuine interest in protecting their businesses or families. Never a quitter, he actually had a meeting approximately a week before his passing.

Our Dad was a great Father, Grandfather and Friend to many associates. He was a great man that we all should strive to emulate. It was our Father's hope and vision that we would continue to perpetuate Shafer Insurance for many years to come. He was happy to know that all the work and efforts of three (3) generations would continue to serve the community.

History is a large part of what Cambridge and Shafer Insurance represents and we can't thank all of you enough for your friendship and patronage. We look forward to the next 119 years and know that nothing would make John Shafer happier.

**Sincerely The Shafer Insurance Agency
Mike, Rick Shafer & Sue Rakowich | Mindy Eltringham**
